

HYDRAULIC SPECIALTY INC.

Product Line Card

1131 - 72nd Ave. NE | Fridley, MN 55125 | 763-571-3072 | hydraulicspecialty.com

Hydraulic Coolers

Truck Mounted Hydraulic Reservoirs
Designed for Wet Kits

Heavy Duty Power Take Offs, Pumps,
Motors and Cylinders

Directional Control Hydraulic Valves,
Pressure and Flow Controls

Vane Pumps, Piston Pumps, Directional
Control Valves, Proportional Valves

Cylinders, Pumps, Motors,
Directional Valves, Pressure and Flow
Control Valves

Accessories, Gauges, Check Valves,
Flow Controls, Needle Valves

Hydraulic Filtration Solutions

Holmbury Hydraulic Couplers

Hydraulic Gear Pumps and Motors

Telescopic Hydraulic Cylinders

Custom Built Hydraulic Power Units,
Hydraulic Cylinders, Component Test
Equipment, Machining and Fabrication

Hydraulic Reservoirs and Accessories

Rotating Shaft Couplings and
Accessories

Hydraulic Gear Pumps and Motors

Hydraulic Accessories, Shaft Couplings,
Reservoirs, Manifolds

Hydraulic Cylinders

Radio controls

Power Take Offs, Hydraulic Components;
Pumps, Motors, Reservoirs, Cylinders,
Valves

LSHT Motors, Piston Pumps and Motors

Hydraulic Piston Pumps and Motors,
Directional Valves and Power Units

Hydraulic Gear Pumps, Motors, Flow
Dividers and Vane Pumps

Hydraulic Hose, Couplings & Crimpers

Planetary Reduction Gears, Steering
Controls, Rotary Manifolds

Hydraulic Quick Couplers

Hydraulic Live Swivels

Truck Mounted Hydraulic Coolers

Electric Motors

Hydraulic Fittings and Adapters

Push-Pull Cable Control Systems

Precision Flow and Pressure Measurement
and Test Instruments

Industrial and Custom Hydraulic Cylinders

Mobile Directional Control Valves and
Proportional Valves

OEM HYDRAULIC SYSTEMS SUPPORT

We can provide full hydraulic system design and engineering, component selection and application assistance to help you achieve your project objectives while maximizing value, system efficiency and performance.

CUSTOM HYDRAULIC POWER UNITS

Hydraulic Specialty, Inc has a long history of providing custom built and designed Hydraulic Power Units spanning many markets and industries. Our in house fabricating and machining capabilities help us to provide a more complete Power Unit solution to you.

INSTALLATION

Hydraulic Specialty, Inc. can handle all of your truck hydraulic system needs. From wet kit installations, fenders and accessories, pneumatic blower installations to hydraulic drive systems. We are experts and provide the system that's right for you and your requirements. When you talk, we listen

REPAIR

Our shop services are here to take care of you and all of your repair service needs. From pumps and motors to cylinders and power units, we have what it takes to provide value and quality repair services to keep your equipment and components running.

CUSTOMER SERVICE

Our team is here to serve you. From application assistance, inside and outside sales support, component selection, over the counter part sales, or custom "while you wait" hose make up, we want to help get back to your work and keep your equipment up and running.
